

Urbanhome

eDESIGN

What is eDesign?

eDesign is a design service option offered by Urban Home that gives clients outside the Windsor & Essex County area the opportunity to use our services from the comfort of your home.

All communication is done via E-mail or video conference to provide a step by step plan for creating a beautifully designed space that meets your requirements - style, space plan, and budget.

Whether you're looking for ideas to update your space with existing furniture or wanting a fresh start, we can assist you with making your dream come to life!

Additional direction for implementing

*Excludes fireplace feature wall design

**Up to 1 hour

THE DESIGN PROCESS

We will send you information regarding pricing options as well as our "getting started package" to review

Once a pricing option is selected, payment and a signed consulting specification form will be collected

You will complete the "getting started package." If Premium option is selected a phone call or video conference will be scheduled to discuss your project details and desired outcome.

The "getting started package" will include a checklist to ensure we have everything we needed to complete your design:

- Photos of space
- Link to inspiration board on Houzz.com or Pinterest.com
- Measurements of space including floor and wall plan
- Completed design questionnaire

One of our professional eDesigners will select furniture, accessories, and materials for your room. They will complete a design board and floorplan showing the ideal layout of the furniture and décor items. They will provide a shopping list with links to purchase the products directly from the online retailers. If the Premium package is selected, a video conference will be scheduled to personally walk you through a 3D rendering of the space and discuss implementation plans for your new room.

You order the furniture and accessories and complete the space per the floorplan provided.
